

Refill system offering both luxury and sustainability.

Lotion bottle with minimalist design

Flush pump and case design fits the hand

Broad pump head for easy dispensing

REI-120IIS CASE

REI-120IIS

Classic form with textured finish

Overall matte texture creates a sense of luxury

Easy refill system

Environmentally friendly replacement refill bottle

Replacement refill lotion bottle

This eco-friendly refill system for lotion offers easy replacement of the thin-walled refill bottle.

The removed refill can be easily crushed and discarded.

The outer case, with its matte finish on the entire exterior, is tactile and luxurious, making it ideal for mid-range and high end essence, lotion, emulsion, moisturizing gel, cleansing oil and more.

Thin wall refill bottle offers reduced use of raw materials

Refill cap options

When combined with the cream jar refill system, a complete product line can be developed.

RECS-50 Set

RECS-50 Refill Jar + Cap

The 50ml cream jar is ideal for beauty/ moisturizing cream, and the 120ml bottle can be used for lotion and toner to offer a complete product line. A 100ml size bottle has also been just been added to the lineup, providing a choice of capacities.
